Remarks:

- MPF Ratings' assessment covers three primary components with different weights: Fund Choices and Performance, Fees and Charges, and an assessment of overall services.
- The "BENCHMARK MPF of the Year Awards" recognise MPF funds with the best long-term performance in Hong Kong. The award is designed to help scheme members identify the best risk-adjusted returns among MPF schemes' constituent funds.
- Bloomberg Businessweek (Chinese Edition)'s "Top Fund Awards" applies a Bloomberg data-driven and performance-based methodology to evaluate funds subject to asset class categories and identify the best-performing funds.
- The above information is for reference only. The awards are not indicative of the actual and future performance of the relevant funds. Investment involves risks. Past performance is not indicative of future performance. If one is to compare the performances of constituent funds in the same category, the comparison should be made across funds of similar risk levels, investment strategies and objectives according to their net performances over a longer period of time. The above information does not constitute investment advice or a recommendation to buy, sell or hold any fund, and it should not be taken as a sale or an offer of any fund or participation in any MPF scheme. One should consider their own risk tolerance level and financial circumstances and refer to the MPF Scheme Brochure for details (including risk factors and fees and charges) before making any investment decision.
